

For immediate release.....

Our friend Amanda Bacon is spearheading the assembly of hair booms here in Fairhope, and in need of volunteer assistance. She has asked the City to partner with her and help round up some help for her group. BP has tried getting her to deliver these booms out of state, but she wants them to stay at home here in Fairhope.

She and her volunteers have already prepared approximately 3 miles of this boom, and has committed to donate it to the City for use in response/cleanup operations.....should they become necessary. In return, she has asked that we round up some help to help transport this material from its assemble point to storage. And has also asked if the City can store some of this material in our warehouse. I am working on both of these items.

There will be a boom assembly get together at the American Legion here in Fairhope on Sunday beginning at 1 p.m.....and then again Tuesday, May 25, 2010 beginning around 5 p.m. at the Legion.

They also assemble these booms daily in the Swamp Room at Felix's Fish Camp(under the restaurant) daily.....from morning until evening during the week.

THIS IS A FAMILY EVENT.....ONE THAT CAN HELP PRESERVE OUR ENVIRONMENT!!!!!!!!!!

Please come out and help.

Thanks,

Ken Fslava
Assistant Public Works Director
City of Fairhope
